

AGENDA

Groundwater Meeting

15 July 2003

Supervisor Dianne Jacob

- I. Groundwater is not a GP 2020 issue - the problem has been here for the Backcountry for decades and has not had deserved priority
- II. Groundwater is not a rainfall issue - it is a inter connected problem of rainfall, usage and hydrogeology
- III. Groundwater is and has been a long term problem with increasing severity
- IV. Groundwater is a GP 2020 issue
- V. Groundwater is a community specific problem
 - A. Pine Valley issues
 - B. Descanso issues
 - C. Boulevard issues

 - D. Campo/Lake Morena issues
 - E. Julian issues
- I. County Groundwater Ordinance (and the Groundwater Limitations Map) and County General Plan provisions are inadequate
- II. What kind of action is needed
 - A. Raise public awareness by providing more information
 - B. An in depth study founded on scientific and technical investigations
 - C. A study that involves the public to reduce the possibility of a "County" report
 - D. A study that involves outside experts
 - E. A study that is not buried in the GP 2020 EIR
- III. How will the necessary studies be financed?
 - A. NOP EIR 16 Dec 2002 Eric Gibson - we do not have the money to make a study
 - B. 11 February 2003 BOS decision includes no money for a limited study
 - C. May 2003 BOS action authorizes only a Pine Valley study
 - D. BOS deliberations provides only a very general non specific promise from DPLU
- IV. Groundwater legislation issues
